2012 Hematopoietic Database and Coding Manual Now Available

The 2012 Hematopoietic Database and Manual are now posted on the SEER website. Please see the website for instructions on downloading the Manual and stand-alone Database as well as information on the web-based Database.

The URLs for accessing the homepage and Hematopoietic Database and Manual are:

- Hematopoietic Project home page (Hematopoietic Manual and stand-alone Heme DB):

  http://seer.cancer.gov/tools/heme/

- Hematopoietic & Lymphoid Database (web-based Heme DB):

  http://seer.cancer.gov/seertools/hemelymph

These tools have been developed for use beginning with cases diagnosed 1/1/2012. If implementation of these tools for 2012 cases is not possible in your registry at this time, please contact Margaret (Peggy) Adamo at adamom@mail.nih.gov

Note that the ICD-O-3, ICD-9 and ICD-10 code lists for the Hematopoietic diseases will be available for viewing, searching, printing and exporting from the Hematopoietic Database website in early June. Those requiring programmatic access to any of the data stored in the Hematopoietic Database, which includes the information in these lists, should access this information through the new SEER Application Programming Interface (API) which will be available on the SEER website in early June.

SEER will be updating the Hematopoietic Project educational modules to reflect the 2012 Hematopoietic Database and Manual in the near future.
